Experience

UXUI Designer — Fusemachines Nepal

AUG 2019 - AUG 2026

End-to-end design process for digital products, from discovery research through high-fidelity prototyping and usability testing.

Collaborate with cross-functional teams to translate business requirements into user-centered design solutions that drive measurable outcomes.
Develop and maintain scalable design systems to ensure consistency and efficiency across products and platforms.

Conduct user research, competitive analysis, and usability testing to validate design decisions and iterate based on user feedback.

Apply accessibility best practices and responsive design principles to create inclusive experiences across devices.

Achieved significant UX improvements including SUS score increases from 63.5 to 97.5 through iterative design and user testing.

Graphic Designer — Mpercept Technology

MAR 2019 - AUG 2019

Designed high-impact visual marketing assets, including social media posts, large-format hoardings, banners, ID cards, and promotional pamphlets.

Managed end-to-end print prepress production, ensuring accurate layouts, color profiles, and bleed specifications for high-quality print outputs.

Web Designer — Degisoft Technology

OCT 2018 - MAY 2019

Built responsive, user-friendly web interfaces using semantic HTML and CSS to ensure seamless rendering across all screen sizes and devices.

Translated visual designs into clean, cross-browser-compatible code, optimizing stylesheets for performance, accessibility, and fast load times.
